

N2 CLONTIBRET TO NORTHERN IRELAND BORDER ROAD SCHEME

What Happens Next?

To enable the selection of a Preferred Route Corridor, a detailed route selection study will be undertaken and the route corridors being presented here will be assessed in accordance with the Stage 2 Project Appraisal procedure using the 5 common appraisal criteria of:

- Economy;
- Safety;
- Environment;
- Accessibility & Social Inclusion; and
- Integration.

Please note:

A Preferred Route Corridor has not been identified at this stage. It is envisaged that the Stage 2 appraisal will be complete by the end of 2010 at which time the Preferred Route Corridor will be announced and a public display will be held. It must be emphasised that the Preferred Route Corridor may be one of the proposed route corridors, an amalgamation of parts from more than one route option or an altered alignment involving one or more options.
